

# Multi Switch MSW

| INPUT                 |                      |
|-----------------------|----------------------|
| Voltage               | 180-276 (selectable) |
| Frequency             | 50 / 60 Hz           |
| Switched input phases | ph+N (two poles)     |

| ENVIRONMENTAL         |                                                                 |
|-----------------------|-----------------------------------------------------------------|
| Color                 | RAL 5004                                                        |
| Communication         | RS232 / Slot for communication interface                        |
| Protection rating     | IP20                                                            |
| Other compliances     | EN 62310-1 (safety) EN 62310-2 (electro-magnetic compatibility) |
| Noise                 | <35 dBA                                                         |
| Operating temperature | 0 °C - +40 °C                                                   |
| Storing temperature   | -10 °C up to +50 °C                                             |
| Relative humidity     | 5-95% non-condensing                                            |
| Output sockets        | 8 IEC 320 10 A                                                  |

| DATA               |                   |
|--------------------|-------------------|
| Weight             | 10 kg             |
| Dimensions (h w d) | 2U x 19" x 360 mm |
