## NextEnergy NXE NXE 250

| INPUT                                    |   |
|--|---|
|  | 2500001/4   |
| Rated power                              | 250000 VA   |
| Voltage                                  | 380 / 400 / 415 V three-phase                             |
| Voltage tolerance                        | 400 V ±20% @ full load                                    |
| Frequency                                | 40 - 70 Hz  |
| Power factor                             | 0.99  |
| Current distorsion                       | <3%   |
| Soft start                               | 0 - 100% in 120 sec. (selectable)                         |
| BY PASS                                  |   |
| Rated voltage                            | 380 / 400 / 415 V three-phase + N                         |
| Voltage tolerance                        | ±20% (selectable from ±5% to ±25%)                        |
| Rated frequency                          | 50 or 60 Hz (selectable)                                  |
| Frequency tolerance                      | ±2% (selectable from ±1% to ±5%)                          |
| Rated current                            | 361 A   |
| Back-feed protection                     | yes   |
| Overload capacity Inx10ms                | 15  |
|  |   |
| OUTPUT and INVERTER OUTPUT               |   |
| Rated power                              | 250000 VA   |
| Active power                             | 250000 W  |
| Output Voltage                           | 380 / 400 / 415 V three-phase + N (selectable)            |
| Waveform (Battery Mode)                  | Sinewave  |
| Static stability                         | ±1%   |
| Dynamic stability                        | ±5% in 10 msec.   |
| Frequency                                | 50 or 60 Hz (selectable)                                  |
| Voltage distortion with non-linear load  | <3%   |
| Voltage distortion with linear load      | <1%   |
| Overload                                 | 110% for 60 min.; 125% for 2 min.; 150% for 20 sec.       |
| Short-circuit current                    | 2.5 In for 100 msec, + 2.0 In for 900 msec.               |
| AC Volatge Regulation: Battery Mode      | ±1%   |
| Frequency Range: Synchronized            | ±2% selectable  |
| RECTIFIER OUTPUT                         |   |
|  |   |
| Ripple                                   | 0   |
| BATTERIES                                |   |
| Туре                                     | VRLA AGM / GEL, NiCd, Supercaps, Li-ion, Flywheels        |
| Maximum recharge current                 | -0.11% x V x °C   |
|  |   |
| ENVIRONMENTAL                            |   |
| Color                                    | Dark grey RAL 7016  |
| Remote controls                          | EPO, bypass battery charge block (configurable)           |
| Communication                            | USB + Dry contacts + 2 slots for communications interface |
| Safety compliance                        | EN 62040-1:2008; EN 62040-1/EC:2009; EN 62040-1/A1:2013   |
| EMC conformance                          | EN 62040-2:2006   |
| Protection rating                        | IP20 (other on request)                                   |
| Cooling (type)                           | Forced air via speed controlled internal fans             |
| AC/AC efficiency                         | up to 97% (ON LINE Mode)                                  |
| Line-Interactive/Smart Active efficiency | up to 99%   |
| Noise                                    | 63 [dBA] (50% load), 70 [dBA] (100% load)                 |
| Operating temperature                    | 0 °C - +40 °C   |
| Relative humidity                        | 5-95% non-condensing                                      |
